

**REMARKS**

In the specification amendments, the Greek characters were present in the original specification but inadvertently omitted from the amended specification filed with the Preliminary Amendment dated December 21, 2001.

The long insertion at pages 8-9 is essentially copied from claims 14 and 12 which were part of the original disclosure. See also original claim 7. Therefore, no new matter has been added.

The remaining amendments to the specification correct minor clerical errors.

We request approval of new drawings FIGS. 5, 6A and 6B. The new figures illustrate what is clearly described in the specification and include no new matter.

Claims 1-14 have been cancelled leaving new claims 15-21 in the application.

Please charge any additional fee occasioned by this paper to our Deposit Account No. 03-1237.

Respectfully submitted,
